Bonjour,

Comment écrire ceci en SQL:

```
Patienten.Naam = LIKE %{Param1}%  
AND Patienten.Naam SOUND LIKE {Param1}  
AND Patienten.Naam SOUND2 LIKE {Param1}  
AND Patienten.Geboortedatum = {Param3}
```

SI (Patienten.Naam = LIKE %{Param1}%) = "" alors (Patienten.Naam SOUND LIKE {Param1})

SI (Patienten.Naam SOUND LIKE {Param1}) = "" alors
(Patienten.Naam SOUND2 LIKE {Param1})

AND Patienten.Geboortedatum = {Param3}

BAV
